BMJ.2014.022376.R4 - Restoring Study 329: A randomised, controlled trial of the efficacy and harms of paroxetine and imipramine in the treatment of adolescent major depression

Dear Prof. Jureidini:

I am writing to let you know that we have identified a person to independently evaluate some of the outcomes. I am hopeful we will be able to issue a final decision soon. Let me know if you have any questions, and many thanks for your patience.

Elizabeth Loder
