Subject: MGH Meeting Report

Missy and Robert:

Thank you again for all of your work and time devoted to the Mass General meeting with Drs. Henderson, Goff, Cagliero and Nathan last week. It was an excellent opportunity to share data and also increase our awareness of their research findings and activities. After receiving your input, I have completed the report from this meeting. Included in the attachment below are a one page summary of the meeting and a detailed account of the discussions that took place.

Report MGH hyperglycemia DKA Discussion.doc

I will let you know if and when I receive a Letter of Intent from this group to do further research on DKA-related issues.

Regards,  
Alison
