Zyprexa Primary Care Overall Strategy

Vision

Expand Zyprexa's market by redefining how primary care physicians treat mood, thought, and behavioral disturbances

Strategy

Establish position of "safe, proven solution for mood, thought, and behavioral disturbances"

- * Strong emphasis on direct to physician marketing; establish Zyprexa as the next incremental step in PCP's treatment and Rx orbit
- * Broad targeting among office based PCPs
- * Message based on patients' symptoms and behaviors (rather than diagnoses)
